

AUDITING

Delta Energy Services AS can provide lead auditors to perform supplier audits based upon the clients pre-specified criteria such as ISO 9001, ISO 14001 and OHSAS 18001 management systems.

We have a proven track record working for both Operators and Subcontractors, ensuring that their contractors are adhering to the specified standards set out in their project specification documentation.

We use our office network in the UK, USA, Norway, UAE, Indonesia and Australia to ensure that we are able to cater for vendors in an increasingly global supply chain.
